FOR IMMEDIATE RELEASE

MYTHS, PHANTOMS AND VISIONS REVEALED Gallery 117 Show Debuts Artist's Recent Work

Long Beach, CA, July 1, 2009 -- Where do artists get their ideas? The exhibit *Myths, Phantoms and Visions* by artist Carol Roemer, on display at Gallery 117 from July 11th to August 7th, will exhibit pictures of otherworldly realms that might evoke questions and uncertainty in viewers. But accompanying the images will be the thoughts and motivations that were the artist's inspirations. These comments are aimed at inviting viewers to consider other ideas and stimulate their imagination.

Roemer has taught art and art history at Long Beach City College while continuing her own creative work. She has led workshops that help and encourage participants to explore their creativity. More of her artwork can also be seen on her website, www.carolroemer.com.
